Too Hot? Too Cold?

Early detection can make all the difference

Offer your customers advanced protection from the effects of extreme temperatures. The [PG9905 Temperature Detector](#) monitors indoor or outdoor temperatures, is providing early alerts of potentially damaging extreme heat or cold.

Opportunity for your business

- Upsell on advanced functionality
- Easy wireless install
- High reliability, with low-maintenance
- Ideal for residential, small business & commercial

Extra protection for your customers

- Early warning of high-risk temperatures enables pre-emptive action
- Can help prevent frozen pipes, spoiled stock
- Peace of mind wherever temperature is critical – including cool rooms, fridge units
