

DIGITAL CERAMIC IN-GLASS PRINTING

Set your watch –
and see just
how fast **Dip-Tech**
is printing

New Era
in digital ceramic
in-glass printing

Visit Dip-Tech at Glasstec to see your future in glass

Exciting times are coming for glass processors interested in digital glass printing – and it all starts at [Glasstec 2016](#).

Please join us at the **Dip-Tech booth (Hall 12, Stand B49) at Glasstec 2016**, to experience:

- **Dip-Tech New Era Solutions** – NEra and GPI printers, printing at a new level of quality, throughput, and productivity
- **The Dip-Tech Complete Solution lounge** – Connecting glass processors to business
- **Life-size interior glass spaces by Dip-Tech** – Opening new horizons in interior design

- **A varied display of Dip-Tech customers' projects** –The choice of leading architects around the globe

Time is ticking towards [Glasstec](#)

At Glasstec, we will be running live demos of the newest Dip-Tech printers, with a stopwatch running alongside.

We invite you to START your stopwatch and check for yourself how Dip-Tech time just speeds by.

Are you ready to find out how much more quality, throughput and productivity you can achieve with the new Dip-Tech solutions?

Let's meet at [Glasstec!](#)

Please visit the Dip-Tech booth at Glasstec 2016
Hall 12, Stand B49
